

KANSAS & MISSOURI ENVIRONMENTAL EDUCATION CONFERENCE

kacee.org/conference

OCT 26-27

MONDAY-TUESDAY

KANSAS CITY 2026

Kauffman Foundation Conference Center, Kansas City, Missouri

SYSTEMS CONNECT US ALL

The Kansas Association for Conservation and Environmental Education (KACEE) and Missouri Environmental Education Association (MEEA) invite you to sponsor the 2026 Environmental Education Conference!

This conference brings together educators, naturalists, and community leaders from across the region for one of the most dynamic gatherings in our field. This year's theme — Systems Connect Us All — reflects what environmental educators have always known: That the health of our land, our communities, and our children are inseparable.

Sessions span three interconnected strands: building deep relationships with land and place; examining the systems — schools, food networks, built environments — that determine whether people and ecosystems thrive; and strengthening the networks and partnerships that make our collective work more powerful. Your support helps bring this community together, spark the collaborations that outlast the conference, and invest in the next generation of environmental leaders in Kansas and Missouri.

Make an impact on education — Sponsor the Conference!
Educators across Kansas and Missouri are coming together for the 2026 Environmental Education Conference for inspiration, learning, and collaboration. We look forward to treating educators to the best possible KC experience. Your sponsorship helps make that happen!
